Contrast — These are opportunities to improve the legibility of your content.

▲ Background and foreground colors do not have a sufficient contrast ratio. ▼

Names and labels — These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

▲ Image elements do not have [alt] attributes ▼

▲ <input type="image"> elements do not have [alt] text ▼

▲ Form elements do not have associated labels ▼

▲ Links do not have a discernible name ▼

Additional items to manually check (11) — These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#). ▼

Passed audits (18) ▼

Not applicable (12) ▼
